The Future of E-Invoicing in Sweden

As Europe moves towards structured e-invoicing and digital tax reporting, Swedish companies will need to prepare for changes brought by ViDA and the broader development of digital reporting across the EU.

On 12 November 2026, our member Dynatos is hosting an executive briefing at the Embassy of the Netherlands in Stockholm, together with the Swedish Tax Agency. The event will cover the future of digital tax reporting in Sweden, the impact of ViDA, and practical lessons from Belgium and France. The programme will include presentations, a panel discussion, audience Q&A and a networking lunch.

If this sounds interesting, you can register and learn more about the event through this link: [The Future of E-Invoicing in Sweden]

Date: 12 November

Time: 10:00–14:00

Address: Götgatan 16A, 118 46 Stockholm, Sweden
